

Cabela's Trophy Measuring Event

Michael Price

On Saturday and Sunday March 28/29 NW Chapter members set up in front of Cabela's in Lacy and measured various trophies brought in by Cabela's customers.

The picture taken by NW Chapter President , Allen Ernst, shows the Sunday NW Chapter member crew to include Master Measurer James Endress (In the background shadow) ; Measurer John McAdams (two combat tours, Army Infantry Captain, recently discharged); Measurer Mike Rex, (w/beard); Measurer Michael Price(looking down or sleeping); and Del Berg, Chapter treasurer (Hiding financial info behind his back)

The young man holding his grandfather's Mule Deer trophy that was taken in E.W., a number of years ago, has joined the NW Chapter and plans on honoring his grandfather by putting the score in the SCI record book. Enough to bring a tear.

The other gentleman holding his Washington State Shira Moose that was taken with a bow has also joined the NW Chapter.

The Saturday 7:15 AM crew consisted of James Endress, Del Berg, myself and Mark Dinwiddie (who drove 1 1/2 hrs to get there from past Carnation to help). We measured a fair number of trophies and signed up some potentially very good members.

We were again near the WDFW "Trailer of Shame" (Containing confiscated trophies and pulled by a confiscated very expensive truck) and we interacted with a number of the Game Wardens working there and they all alluded to our awarding the "Warden of the Year" at our banquet.

So we put the NW Chapter name in front of hundreds of hunters at going in/out of Cabela's; did a good public service by measuring for free; it was a good team building experience for us; signed up some new members; and furthered our relationship with Cabela's.
