

## SSB 5383 - 2009-10

Including a wolf-hybrid in the definition of a "potentially dangerous wild animal."

This is a good bill that passed the state senate 48-0 with one excused in the 2009 session and made it for a third reading in the house, but died in the house rules committee.

It has been reintroduced in 2010

For a copy of the bill, click on this link.

Although wolf-hybrids will not be huntable, it puts in the legislator's mind that wolves are dangerous and prevents any hybrids to be imported into Washington State. I would urge our members to support this bill by contacting their legislators.
